User Stories

A User Story is the smallest unit of work in an Agile Framework. The User story will convey what the user wants to achieve and states it in a simple, non-technical way. User stories are organized in a backlog, which is an ordered list of product functions.

User Type	Functional Requirement	User Story Number	User story/Task	Acceptance Criteria	Priority	Release
Customer (Mobile User)	Registration	USN-1	As a user, I can access the device by entering my email , password and conforming password	I can access my account	High	Sprint-1
		USN-2	As a user, I will receive conformation email once I have registered	I can receive conformation email and click conform	High	Sprint-2
		USN-3	As a user, I can monitor the health condition	I can monitor heart beat rate, temperature	Low	Sprint-1
	Login	USN-4	As a user, I can touch the device	I can access the device by touch	High	Sprint-3
Customer (web user)	Dashboard	USN-5	As a web user, I can track the child location	I can access the dashboard using mobile phone	Medium	Sprint-1
Customer care Executive					Low	Sprint-2
Administrator					High	Sprint-1
